Hong Kong

Asia's World City

Hong Kong is one of the most vibrant cosmopolitan cities in the world. It is a leading international financial centre and ranks number one in the world for economic freedom. With its safe and convenient living environment, Hong Kong is a great place for education and career development.

The Heart of Asia

The city is ideally located within 4 hours of flight from the region's key financial markets, and 5 hours from half the world's population.

The Great Outdoors

Not only is Hong Kong famous for its endless skyscrapers, it is also a place of great natural beauty, where people can go hiking in the magnificent countryside, relax on pristine beaches, and visit any of the charming outlying islands.
